abilityJOBS is the largest system dedicated to supporting companies and affirmative action plans. Unlimited job postings are the best way to create an ongoing campaign to attract talented candidates with disABILITIES. An Unlimited job posting subscription may only be used within a single company and may be shared with colleagues of the same company within the main subscription holder's account.

FTP Upload - File Transfer

abilityJOBS accepts a direct transfer of job posting data from an employer's ATS (applicant tracking system) or career site to [abilityJOBS.com](https://www.abilityjobs.com) job board. Contact info@abilityjobs.com for details and specifications.

Job Scraping

abilityJOBS offers a scrape and post application to pull job posting data from the employer's career site and upload job postings to [abilityJOBS.com](https://www.abilityjobs.com). abilityJOBS offers this product as-is. Any changes in the employer site coding, structure or platform will "break" the scrape and may require additional cost to repair.

Resume Credits

Employers may search tens of thousands of candidates ranging from entry level to PhDs and from the mailroom to the boardroom. Resume credits may be shared among colleagues at a single company via the main subscription account. A resume credit is used when an employer initiates contact with a candidate in the resume bank and the candidate accepts the contact request. If a job seeker declines or does not respond in 14 days, the resume credit is returned to the employer account.

Reports (Upon request)

abilityJOBS can provide quarterly or annual job posting reports for unlimited subscriptions. Reports include the number of jobs posted in the specified month(s) and the number of job impressions. For "apply" tracking, employers must include tracking tags in the apply links when posting jobs. If the jobs are posted via scrape, tracking tags must be provided to abilityJOBS upon ordering the scrape. Contact info@abilityjobs.com with questions.
